

The law ensures that data controllers are under the supervision of the Board.
Data Controllers Registry to be kept by the Presidency
requires registration. Hence the data
public disclosure of who is responsible
and with this method, the right to protection of personal data is more
intended to be used effectively.

The procedures and principles regarding the registry are the Data Controllers Registry.
It has been determined in the Regulation.

I. Data Controllers
Attributes of Registry

Data Controllers Registry, open to the public under the Law
must be kept. The concept of publicity,
the person who wants to be able to examine the registry
means. The principle of publicity, personal
important for data protection. Because data
responsible persons are known to the public,
fight more effectively against violations of people's rights
will allow it.
