   DISTRIBUTION ON THE INTERNET
                                                                     4. Control of execution of this resolution to assign to the Deputy Prime Minister LA Akhmetov.
                                                                                                                                                      Chairman of the Cabinet of Ministers I. KARIMOV
                                                                          Tashkent,
                                                                        March 26, 1999
                                                                             No. 137
                                                                                                                                                                 1999 of the Cabinet of Ministers
                                                                                                                                                                  To Resolution No. 137 of 26 March
                                                                                                                                                                              APPENDIX
                                                              In the field of preparation of information resources of the Republic of Uzbekistan and their data transmission, including
                                                                                                             About the order of distribution on the Internet
                                                                                                                              NIZOM
                                                                                                                    I. GENERAL RULES
                                                                      1. This Regulation expands and regulates the use of global information networks, information resources
                                                           ensuring protection, dissemination of information calling for forcible change of the constitutional order, war,
                                                            to promote oppression and pornography, to incite religious and national strife, to violate human dignity and honor
                                                            and dissemination of other information prohibited by the current legislation of the Republic of Uzbekistan
                                                            information resources for the rapid exchange of information on the territory of the Republic of Uzbekistan in order to prevent
                                                            regulates the issues of their preparation and distribution.
                                                                      2. These Provisions "About communication", "About informatization", "About radio frequency spectrum", "Public
                                                            "On the media", "On guarantees and freedom of access to information", "Protection of consumer rights
                                                            Law of the Republic of Uzbekistan "On Frequency Spectrum" of the Cabinet of Ministers of the Republic of Uzbekistan
                                                            use, formation and distribution of television and radio programs, as well as improving the efficiency of data transmission
                                                           On Additional Measures "No. 293 of July 10, 1998," Establishment of a National Data Transmission Network and the World
                                                            on Regulation of the Use of Information Networks "No. 52 of 5 February 1999.
                                                                     3. This Provision applies to state bodies, citizens, irrespective of patterns of ownership and departmental subordination.
                                                           enterprises, institutions and organizations, public associations.
                                                                     4. This Provision "Legal status of the programs and databases created for the computer
                                                            does not affect the relations regulated by the Law of the Republic of Uzbekistan "On protection".
                                                                                                                II. TERMS AND DEFINITIONS
                                                                     See previous edit.
                                                                     5. The following terms and definitions are used in this Provision:
                                                                     Documented information is recorded in a source of material with requisites that allow identification
                                                            information.
                                                                     See previous edit.
                                                                     Confidential information - restricted in accordance with the laws of the Republic of Uzbekistan, belongs to state secrets
                                                            documented information for which no information is available;
                                                                     (Paragraph 5 of the third paragraph of the Cabinet of Ministers No. 296 of November 7, 2011, the decision
                                                           as amended by the Law of the Republic of Uzbekistan, 2011, No. 45-46, Article 472)
                                                                     Mass media - documented information, press, audio, audiovisual and other intended for the public
                                                            messages and materials.
                                                                     Information resources - information in electronic form, data banks, databases within the information system.
                                                                     An information system is information that enables the collection, storage, retrieval, processing, and use of information
                                                            an organized regulated set of resources, information technology, and communications.
                                                                     Information products (products) - tailored to the needs of users and users
                                                           documented information designed or applied to meet their needs.
                                                                     Information services - entities that provide users with information products (owners and property
                                                                     Owner of information resources or information systems - ownership of information resources or information systems, from them
                                                            legal entities or individuals who use and dispose of them.
                                                                     User (consumer) of information, means of information exchange (hereinafter referred to as user)
                                                            - access to the necessary information products or means of international information exchange
                                                            an entity that applies to and uses an owner or property owner for.
                                                                     Information processes - the preparation, collection, processing, storage, retrieval, distribution and use of information
                                                            processes.
                                                                     Information exchange - the transfer and receipt of information products, as well as the provision of information services.
                                                                     Means of information exchange - information systems and communication networks used in the exchange of information.
                                                                      Information field (environment) - activities related to the preparation, processing and use of information by entities
                                                            area.
                                                                     Information security is a state of protection of the interests of the individual, society and the state in the field of information.
                                                                     (Paragraph 5 as amended by the Resolution of the Cabinet of Ministers of the Republic of Uzbekistan No. 215 of May 7, 2004 - NGO of the Republic of Uzbekistan, 2004,
                                                           No. 19, Article 220)
                                                                      III. INFORMATION RESOURCES, INFORMATION PRODUCTS AND INFORMATION EXCHANGE
                                                                                                         OWNERSHIP RIGHT TO MEANS
                                                                     See previous edit.
                                                                     6. Information resources can be public and private property.
                                                                      State information resources are information resources of state bodies; state budget of legal entities and individuals
                                                            information resources created at the expense of funds; have state secrets and confidential information of legal entities and individuals
                                                            from available information resources; from documented information provided by legal entities and individuals in the prescribed manner
                                                            formed.
                                                                     Individuals and legal entities created at their own expense, purchased by them on a legal basis,
                                                            documents received by the state for personal use, received as a gift or inheritance, owners of document arrays

                                                                     7. The right to own information resources, the relationship between their owners, the Civil Code and
                                                           It is regulated by the Law on Informatization.
                                                                     8. Inclusion of information in the state secret to the Law of the Republic of Uzbekistan "About protection of the state secrets"
                                                            conditions of confidential calculation and use of information are carried out in accordance with the legislation of the Republic of Uzbekistan
                                                            is carried out in the manner prescribed by.
                                                                     See previous edit.
                                                                     Personal data of individuals are included in the category of confidential information.
                                                                     (Paragraph 2 of item 8 in the edition of the resolution of the Cabinet of Ministers of the Republic of Uzbekistan from May 7, 2004 of No. 215
                                                            - NGO of the Republic of Uzbekistan, 2004, No. 19, Article 220)
                                                                     9. The right to own information products and means of information exchange.
                                                                     9.1. Documented information, information resources, means of information exchange Property rights of owners
                                                            objects and are included in their property. Information products and information of the Republic of Uzbekistan
                                                            Relations related to property rights to means of exchange are regulated by the Civil Code of the Republic of Uzbekistan
                                                            is filled.
                                                                     9.2. Property rights relations arising from the provision or receipt of information services
                                                            is determined by the contract between the owner or owner of the information products and the user. Information service
                                                            does not grant copyright to the user for the documented information obtained.
                                                                     9.3. Information products, if they contradict the legislation of the Republic of Uzbekistan and international agreements
                                                            otherwise, it is a commodity.
                                                                                               IV. LEGAL PROCEDURE FOR INFORMATION EXCHANGE
                                                                     10. Exchange of confidential information, mass media is practiced in the present Provision and in the territory of the Republic of Uzbekistan
                                                            in the manner prescribed by other existing normative documents.
                                                                      11. Use of means of information exchange.
                                                                      11.1. From the means of information exchange in the territory of the Republic of Uzbekistan only by their owner or by them
                                                            used at the discretion of the authorized person.
                                                                     See previous edit.
                                                                      11.2. Confidential information To the permission to work with confidential information when distributed on the data transmission network
                                                            for individuals and legal entities who have and use certified means of information exchange
                                                            protection is ensured.
                                                                     (Sub-item 11.1 of item 11 in edition of the resolution of the Cabinet of Ministers of the Republic of Uzbekistan from May 7, 2004 of No. 215
                                                            - NGO of the Republic of Uzbekistan, 2004, No. 19, Article 220)
                                                                      11.3. When extraordinary circumstances of the operation of the means of information exchange are detected - an error
                                                            teams, as well as unauthorized actions or false information by service personnel or other persons
                                                            due to the fact that when the commands appear, the owner of these tools to the control authorities to carry out information exchange
                                                            and must inform the owner of the interacting means of information exchange in a timely manner, otherwise he
                                                            responsible for the damage caused.
                                                                      12. Connecting information systems, networks to the means of information exchange.
                                                                      12.1. Connecting information systems, networks to the means of information exchange Information activity and data
                                                            according to the decision of the interdepartmental coordination commission on improvement and increase of efficiency of transmission
                                                            when licenses are available.
                                                                     See previous edit.
                                                                      12.2. A state with special rules for the use of information resources in the structure of information exchange
                                                            connection of information systems, networks after certification in accordance with the requirements of information security Uzbekistan
                                                            With the permission of the Cabinet of Ministers of the Republic of Kazakhstan.
                                                                     (Paragraph 12.2 as amended by the Resolution of the Cabinet of Ministers of the Republic of Uzbekistan dated November 7, 2011 No 296 - NGO RU,
                                                            2011, No. 45-46, Article 472)
                                                                      12.3. Use of means of information exchange and information products.
                                                                      13. Use of means of exchange and information products by individuals and legal entities Uzbekistan
                                                           In accordance with the rules established by the owner of these tools and products in accordance with the laws of the Republic
                                                            is increased
                                                                     The owner of the means of information exchange and information products are the rules of use established by him
                                                            must be open and accessible to the user.
                                                                      14. Coordination and regulation of activities in the field of information exchange.
                                                                      Coordination and regulation of activities in the field of information exchange Information activities and data transmission
                                                            by the Interagency Coordination Commission for Improvement and Efficiency.
                                                                      15. Certification of information products, information services, means of information exchange.
                                                                     See previous edit.
                                                                      15.1. Import of information products and services subject to certification into the Republic of Uzbekistan
                                                            the importer provides a certificate confirming that these products and services meet the established requirements.
                                                                     (Paragraph 15.1 of the Cabinet of Ministers No. 194 of September 14, 2006, decision of the foreign citizens 37, 2006.
                                                            No. 38, Article 378)
                                                                      15.2. Information exchange tool used in the preparation and dissemination of information containing state secrets,
                                                            it is also mandatory to certify the information security tool.
                                                                      16. Restrictions on the exchange of information.
                                                                      16.1. The following:
                                                                     state secret or confidential information;
                                                                     national property;
                                                                     archive fund;
                                                                     Shipment (export) may be restricted by the legislation of the Republic of Uzbekistan
                                                            sending (export) of other information included in the category of documented information from the Republic of Uzbekistan is limited.
                                                                      16.2. Calling for forcible change of the constitutional order, promoting war, oppression and pornography,
                                                            information inciting religious and national conflicts, violating human honor and dignity, and current legislation
                                                            The importation and dissemination of other information prohibited by
                                                                      16.3. The owner of the documented information, information resources, information products, means of international exchange
                                                            on the actions of individuals to restrict the exchange of information, if these actions are unjustified and its
                                                            has the right to appeal to the court if he violates his rights.
                                                                      17. Liability for violations in the exchange of information.
                                                                     Individuals and legal entities for illegal actions in the exchange of information -
                                                            Residents and non-residents of the Republic of Uzbekistan shall be liable in accordance with the legislation of the Republic of Uzbekistan.
                                                                                                    V. FORMATION OF INFORMATION RESOURCES
                                                                      18. Organizations specializing in the formation of state information resources and information resources in conjunction with the state
                                                            must obtain a permit for this type of activity for the design, construction and operation of data transmission networks.
                                                                      19. Information systems designed for the formation and maintenance of state information resources,
